The Next Step: Applying what we know about trauma, attachment and brain development to your everyday challenges

Monday 26th July

9.30am – 1pm

Click [HERE](#) or use the QR Code to register

Host: Evolve Logan, Ph 3412 1500

This workshop will explore how your child or young person's history of trauma impacts on their day to day functioning, and how we can respond to their needs. We will do this through the lens of losses that children and young people have experienced as part of their story, and how these losses impact on their behaviour, relationships, learning and ability to engage in the world around them. Through the sharing of our own ideas and learning from key experts, we will explore some potentially helpful ways of managing these everyday challenges towards healing and healthy relationships.

No need to register for virtual access – click the link at the time of the workshop!

Sexual Behaviour in Adolescents
