| <p><b>Koala Posture Chair with Pommel, Headrest and Foot Plate</b></p>                         | <p>The ETS Posture Chair is suitable for a child who needs a chair with extra support. It has adjustable arm rests, footplate and pommel and is available in various sizes to accommodate children from 18 months to 10 years. It is height adjustable and includes a curved wedge seat, curved back rest and head rest bracket. It comes with a removable tray but can also be used at a kinder table, a cut out table or inclusion table.</p>  |
| <p><b>Cap Preschool/ Primary Posture Chair with Foot Plate &amp; Headrest and Pommel</b></p>  | <p>The Cap Posture Chair is suited to children with physical disabilities, varying muscle tone, sensory processor or distractibility issues, feeding or swallowing difficulties and children who are short in stature.</p> <p>The height ranges of both the legs and armrests are manufactured to ensure maximum adjustability without compromising the stability and safety of the chair. It is not recommended to modify the structure or components in any way, as the chair stability will be compromised.</p> <p>Foot rest, head rest, pommel base chair + optional straps, body point harness, body point hip belt Thoracic/Laterals, chair with tray ,plastic castors, rubber castors, sliders.</p> |
| <p><b>Cap Corner Chair Small + Headrest and Pommel</b></p>                                    | <p>The Corner Chair is most suited to young children with low tone or without independent sitting balance. A Corner Chair allows children with physical disabilities to sit for long periods, providing support for their hips whilst placing their muscles in a long stretch.</p>   |
| <p><b>Wheelie Stool</b></p>    | <p>The Wheelie Stool was designed specifically to be used by attendants of children with a disability to allow them to move closer to the child to assist with an activity. Heavy duty twin wheeled castors ensures stability whilst allowing a high degree of manoeuvrability. Ergonomically designed seat for user comfort.</p>  |

| Equipment Name   | Description   |
|--|---|
| <p data-bbox="86 129 421 165"><b>Floor Sitter with Wedge</b></p>  | <p data-bbox="521 129 1458 282">Originally developed for feeding, the Deluxe Floor Sitter is a feeder seat positioner and floor sitter wedge that can be used for any short-term activity. The wedge can be used to position the Feeder Seat Positioner in an upright or a reclined position suitable for the child's activity.</p> <p data-bbox="521 300 1458 371">A Velcro® brand hook and loop system holds the seat securely, allowing instant adjustability. See sizing chart to determine size needed.</p> <p data-bbox="521 389 1362 501">Easy to get the child in and out of, the Tumble Forms Feeder Seat Positioner allows good basic positioning without complicated adjustments.</p>  |
| <p data-bbox="86 564 280 600"><b>CAP Tilt Stool</b></p>           | <p data-bbox="521 564 1426 828">Children who experience weak trunk and upper limb muscles, low tone in their trunk and/or upper limbs can use the Forward Tilt Stool to build stability, build trunk, head and neck control and build upper limb strength. For children who have the ability to support themselves by placing their feet on the ground, the Forward Tilt Stool can be used to build trunk control and stability. The angle of the stool allows a gravity assisted strong anchor point for the feet.</p>   |
| <p data-bbox="86 891 319 927"><b>FIREFLY Splashy</b></p>         | <p data-bbox="521 891 1474 963">Splashy is a portable bath seat for children with disabilities. It makes their bath-time a ton of fun and a lot easier for grown-ups.</p> <p data-bbox="521 972 1458 1084">It's a portable, lightweight and supportive seat that works for bathing or messy games wherever you go. You can even take it outside for messy games, or on your next road trip to granny's house.</p> <p data-bbox="521 1093 1474 1420">Little bath buddies get more space to play together now. Splashy is really compact and sits nice and low in the bath, so it uses less space and less water. Now that you can lift and store Splashy easily, there's no bulky equipment permanently hogging the tub anymore. You've got your bath back! Splashy's 5-point configurable harness keeps kids secure, but can also be switched to 3-point when needed. Splashy sits low to the base of the bath so the child can sit in the water. The foam bumpers can be used as a pommel or a support for the head, sides, or bottom as an anti-slide shelf.</p>  |
| <p data-bbox="86 1473 309 1509"><b>FIREFLY Scoot</b></p>        | <p data-bbox="521 1473 1394 1545">Scoot's 3-in-1 design means 3-times the fun and 3-times as many chances to fulfil potential.</p> <p data-bbox="521 1554 1394 1626">And because it's more affordable than other mobility devices, your investment goes a lot further.</p> <p data-bbox="521 1635 1458 1742">It's hard to watch your child sit-out the fun stuff if they have mobility problems, but it is tough being on their arms and legs all day too. Scoot gives you both a little freedom.</p> <p data-bbox="521 1751 788 1787">A chance to develop</p> <p data-bbox="521 1796 1458 1895">Scoot provides an early experience of independence for lots of children with mobility challenges. It frees them to explore their home, play with pals, chase big brothers and race little sisters without any help.</p> <p data-bbox="521 1904 1410 2047">Our expert clinicians, designers and engineers worked hard to create a device that will help kids discover new skills as well as new pals. The potential for physical and cognitive development was a key factor in every element of the design.</p> |

| Equipment Name  | Description   |
|---|---|
| <p><b>FIREFLY GoTo Seat</b></p>                            | <p>Families worldwide use their GoTo seats on shopping carts, swings and granny's dining chairs. A GoTo makes your daily tasks easier and keeps your little one involved.</p> <p>And now this popular support seat has dozens of upgrades as requested by parents and therapists.</p> <p>The GoTo seat now caters for more sizes and adjusts to suit your child. The laterals move high, low, wide or narrow to give a reassuring 'hug', while the head support slides up and down to the ideal height. It keeps kids happy, safe and comfy.</p>  |
| <p><b>LECKEY-PAL Classroom Chair</b></p>                   | <p>PAL is an attractive, robust and easy to use classroom and nursery seating system for kids with mild to moderate postural needs</p> <p>It is designed to give improved stability, which helps reduce fatigue and allows the child longer periods of concentration and fine motor activity</p> <p>Matching tables available</p>   |
| <p><b>LECKEY Squiggles Seating System</b></p>            | <p>Squiggles Seating System is designed for children requiring postural support.</p> <p>Adjustable seating system with tilt in space mechanism.</p> <p>Designed to suit children from 1 to 5 years and allows for growth.</p> <p>Can be ordered with a choice of base including wheelchair base, stroller base or high low indoor base.</p> <p>Seating accessories include thoracic supports, sandals, tray, harness plus others.</p>   |
| <p><b>LECKEY – MYGO SEATING System</b></p>               | <p>Multifunctional seating system designed for children and adolescents requiring moderate postural support. Available in two sizes: For children aged 3-10 years and children aged 8-14 years.</p> <p>Includes leg guides, four-point pelvic positioning harness and adjustable sacral support.</p> <p>Available with unique Leckey pelvic cradle for improved postural control</p> <p>Seat width and depth are continuously adjustable allowing for a large degree of growth.</p> <p>Range of additional postural supports available. Seating system fits many transporting systems</p> |
| <p><b>J LECKEY – Squiggles Early Sitting System</b></p>  | <p>The Squiggles Early Sitting System is designed to encourage children up to 2 years to develop sitting balance</p> <p>The dynamic trunk support of this lightweight, portable seat allows upper body movement</p> <p>Can be set up for dynamic sitting, prone sitting and long sitting and can even be strapped to a normal dining table chair</p>  |

|---|---|
| <p data-bbox="105 152 363 190"><b>LECKEY Easy Seat</b></p>       | <p data-bbox="544 152 1487 230">Sturdy height-adjustable chair provides postural support for children with positioning needs</p> <p data-bbox="544 230 1085 264">Ideal for the school or home environment</p> <p data-bbox="544 264 1364 302">Seat width and depth adjustment allows for growth in the chair</p> <p data-bbox="544 302 1002 340">Can be converted to a potty trainer</p> <p data-bbox="544 340 1010 378">Large range of accessories available</p>   |
| <p data-bbox="105 537 368 575"><b>FIREFLY Upsee Kit</b></p>      | <p data-bbox="544 537 1380 575">It is a revelation for many children with neuromuscular disorders.</p> <p data-bbox="544 575 1487 725">Some have been able to stand and hug their little brother or sister for the first time. Some have waved at neighbours on their first ever walk along their own street. And some crossed the playground hand-in-hand with their best friend for the very first time.</p> <p data-bbox="544 725 1362 763">They are just little steps – but they mean the world to someone</p>  |
| <p data-bbox="105 1081 355 1120"><b>The Gravity Chair</b></p>  | <p data-bbox="544 1081 997 1115">The Gravity Chair is more than just a seat.</p> <p data-bbox="544 1115 1487 1178">The Gravity Chair is a very supportive foam positioning system to augment postural control for a wide range of individuals. It follows the principle ‘Tension and Relaxation’</p> <p data-bbox="544 1178 1487 1211">The manufacturer has made some great improvements from the existing cotton covers.</p> <p data-bbox="544 1211 1487 1402">A better outcome has been achieved for use in hot climates and for those users who sweat profusely. The wipe-clean material is a huge advancement in functionality for incontinent users or those who like to eat in their favourite chair. Medifab has received feedback from families who were disappointed that the current Gravity is only available in bright Blue. The introduction of the neutral light colour will fit in easily with home décor and the option of 3 colours to Jazz up to suit gives increased flexibility.</p> <p data-bbox="544 1402 957 1435">There are two options to choose from.</p> <p data-bbox="544 1435 1487 1563">The Classic: While the current cotton covers did not offer enough breathability, the new improved “wipe down” material creates a longer lasting product. The wipe down areas are a “comfort touch” PU coated fabric for maximum enjoyment. Air breathable on user contact surfaces and rear back panel. Wipe down in all other areas.</p> <p data-bbox="544 1563 1487 1659">The Wipe Down: Improved with the “comfort touch” PU coated fabric and greatly reduced price. Fully wipe down, including internal contact surfaces where client is seated.</p> <p data-bbox="544 1688 853 1722">Which model is right for me?</p> <p data-bbox="544 1722 767 1756"><b>The Classic Gravity</b></p> <p data-bbox="544 1756 1487 1818">Air-breathable material on internal contact surfaces. Liner can be removed and washed. A wipe-down material over the majority of the chair for easy cleaning</p> <p data-bbox="544 1818 826 1852"><b>The Wipe-Down Gravity</b></p> <p data-bbox="544 1852 1118 1886">A great option for those with continence/reflux issues</p> <p data-bbox="544 1886 772 1919">For any messy eaters</p> <p data-bbox="544 1919 817 1953">Easy wipe-down cleaning</p> <p data-bbox="544 1953 869 1986"><b>What colours are available?</b></p> <p data-bbox="544 1986 1487 2049">Choose from three different colours for the inner material on either version of the Gravity chair. The chair itself is a light neutral colour.</p> |

|---|---|
| <p data-bbox="105 152 432 188"><b>CAP-Tilt in Space Chair</b></p>  | <p data-bbox="544 152 1469 264">The CAP Tilt In Space (TIS) chair has been designed in conjunction with therapists and carers to create an aesthetically pleasing, yet functional supportive seat for home, school and therapy use.</p> <p data-bbox="544 271 1469 685">Our TIS chair combines the simplicity of manual growth adjustments and manual tilt functions, with the versatility of adjustable optional accessories to enable the chair to grow and adapt with your child. The large TIS chair suits children who need a supportive seat to enable active learning, feeding or respite from their normal daily seating. TIS encourages rest-sit-stand positioning, whilst retaining midline support which may not be possible in a wheelchair or standard postural chair. Our chair is made with a heavy-duty plastic core and high-quality timber sides and base. The chair can be completely disassembled for cleaning if required. The TIS chair has been tested and complies with Australian Standard AS/NZ 4688.2-200 for a user weight up to 100kg.</p> |

## Tables

| Equipment Name  | Description  |
|---|--|
| <p data-bbox="105 952 352 987"><b>CAP Cutout Table</b></p>       | <p data-bbox="544 952 1469 1335">Suitable for children with physical disabilities, degenerative conditions, Sensory Processing Disorders, Autism Spectrum Disorders, challenging behaviours or distractibility. Because the table is height adjustable, a child can be sitting in an upright or ready sitting posture with their feet flat on the floor plus achieve front and side support from the table. This assists the child to feel more supported and provide extra prompts to sit upright as they start to fatigue and lean to one side. The rails prevent items like pencils, books and plates from being pushed over the edge and provide additional support for the child who struggles to stabilise themselves.</p>   |
| <p data-bbox="105 1379 384 1415"><b>CAP Inclusion Table</b></p>  | <p data-bbox="544 1379 1469 1688">The Inclusion Table allows children to participate in group activities and mealtimes. The table is height adjustable and can be adjusted to facilitate a child or children to be sitting in an upright or ready sitting posture with their feet flat on the floor. The cut out provides front and side support from the table. This assists a child to feel more supported and provide extra prompts to sit upright and maintain focus as they start to fatigue or become distracted. The cut out allows the child to be close to the table so their arms and elbows can be supported.</p>   |
| <p data-bbox="105 1747 368 1783"><b>Jenx Nursery Table</b></p>   | <p data-bbox="544 1747 1469 2110">This sturdy table, with a large, plastic play/activity surface can be used flat, angled or as an easel. The frame is adjustable for height and can be used with seats such as the Corner Seat. A short strap on each side of the table attaches the two items together and prevents the table from being pushed off or tipped over. The plastic surface is easy to wipe clean and is cut out to one side to allow the child to get close to their activities. The bright contrasting table edging assists children in identifying the edges of the table plus it prevents items from being easily knocked off the table and is a great place for toys to be secured to. In addition the space beneath the edging allows for dirt to be brushed through for cleaning.</p> |

# Standing

| Equipment Name  | Description   |
|---|---|
| <p data-bbox="86 230 341 264"><b>Jenx Multistander</b></p>                     | <p data-bbox="521 230 1430 300">A fully adjustable and versatile 3 in 1 standing frame offering Upright, Prone and supine positioning for infants and children up to 13 years.</p>  |
| <p data-bbox="86 595 363 629"><b>Rifton Multistander</b></p>                   | <p data-bbox="521 595 1430 819">The Rifton Dynamic Stander provides independence and standing mobility for wheelchair-bound children. The mobile stander helps strengthen critical motor skills so a child can progress toward independent standing. Remove its large wheels, and the Rifton mobile prone stander easily rolls right up to a table or a counter enabling participation in crafts and other stationary activities.</p>   |
| <p data-bbox="86 1216 496 1285"><b>Jenx-Monkey Prone Standing System</b></p>  | <p data-bbox="521 1216 1469 1630">Specifically designed for younger children, the Monkey by Jenx is a gentle introduction to standing. Offering smooth and easy angle adjustment, even with the child in the product, the Monkey can go from upright at 90 degrees all the way down to 20 degrees prone. This wide angle range gradually builds tolerance to standing. Thoracic and pelvic support along with flexible leg positioning. Straps fasten in the centre and adjust independently from either side, enabling a mid-line position to be achieved and maintained. Buckles and Velcro mean that, once adjusted correctly, the straps can be fixed making it difficult to tamper with. Fastened in the centre and then adjusted from either side, which keep a child's hips in mid line. Available with bowl and tray.</p> |

# Accessories

| Equipment Name  | Description  |
|---|--|
| <p data-bbox="86 226 343 259"><b>Move n Sit Wedge</b></p>                | <p data-bbox="521 226 1471 528">The Movin' Sit Seating Wedge is an inflatable wedge-shaped cushion that can also be used upright in any chair as a back support or on the floor. It works by encouraging the spine's natural S-curve, which is often flattened out when seated on normal chairs, or with habitual poor posture. The Movin' Sit tips the pelvis slightly, helping the spine maintain its correct curve, and because the wedge is slightly inflated, it is therefore unstable, giving almost any chair many of the benefits of active or dynamic sitting.</p> <p data-bbox="521 548 1471 696">They are particularly popular for more hyperactive children and young people during activities or tasks where they are expected to stay sitting for an extended period of time. They improve posture and allow a certain amount of wiggling around without having to get off the chair.</p> <p data-bbox="521 716 1471 781">Also known as a move and sit wedge, inflatable wedge and move n sit cushion.</p> |
| <p data-bbox="86 797 461 869"><b>Switch Adapted Toy – BIG-mack</b></p>  | <p data-bbox="521 797 1471 1099">An adapted toy is often the first opportunity a child with a disability is given to independently control something. Through the use of switch toys, children with a disability can learn cause/effect relationships. Motor development, cognitive development, language and social interaction skills can also be promoted. Over the longer term these skills may be applied to much more sophisticated devices - educational, recreational, communication and environment control equipment that can greatly enhance a person's quality of life.</p>  |
